

AMENDMENTS TO THE CLAIMS

Please cancel claims 2, 5, 6 and 14-21 without prejudice to further prosecution of their subject matter in this or any application, amend claims 1, 3, 4, 7 and 8, and add new claims 22-33 as provided in the following complete listing of the claims.

1. (Currently Amended) A method comprising:
storing content on a ~~storage~~ portable memory device, said content including an image captured using a recorder/playback device;
detaching the ~~storage device from a~~ portable memory device from the recorder/playback device; and
displaying the ~~content~~ image on the ~~storage device~~ portable memory device while the portable memory device is detached from the recorder/playback device.
2. (Canceled).
3. (Currently Amended) The method according to Claim 1 further comprising transmitting the content from the recorder/playback device to the ~~storage device~~ portable memory device.
4. (Currently Amended) The method according to Claim 1 further comprising selecting ~~a particular content to~~ the image for display on the ~~storage device~~ portable memory device.
5. (Canceled).
6. (Canceled).

7. (Currently Amended) The method according to Claim 6 1 further comprising selecting a mode to display the image, wherein the mode includes displaying the image as part of sequentially displaying multiple pieces of content.

8. (Currently Amended) The method according to Claim 6 1 further comprising selecting a mode to display the image, wherein the mode includes displaying the image as part of simultaneously displaying multiple pieces of content.

9. (Original) The method according to Claim 1 wherein the recorder/playback device is a digital camera.

10. (Original) The method according to Claim 1 wherein the recorder/playback device is a video camera.

11. (Original) The method according to Claim 1 wherein the recorder/playback device is an audio recorder/player.

12. (Original) The method according to Claim 1 wherein the recorder/playback device is a computer.

13. (Original) The method according to Claim 1 wherein the recorder/playback device is a television.

14. (Canceled).

15. (Canceled).

16. (Canceled).

17. (Canceled).
18. (Canceled).
19. (Canceled).
20. (Canceled).
21. (Canceled).
22. (New) The method of Claim 1, wherein the portable memory device displays functional controls for the recorder/playback device while the portable memory device is connected to the recorder/playback device, said functional controls including soft keys that are particular to the recorder/playback device.
23. (New) The method of Claim 1, wherein the portable memory device is configured to include an attachment area, said attachment area including a magnet for attaching the portable memory device to a metallic object, such that the portable memory device displays the image while attached to the metallic object.
24. (New) A portable memory system, comprising:
 - interface means for connecting to and detaching from a recorder/playback device;
 - storage means for storing content including an image captured using the recorder/playback device; and
 - display means for displaying the image while the portable memory system is detached from the recorder/playback device.

25. (New) The portable memory system of Claim 24, wherein the display means is configured to display functional controls for the recorder/playback device while the portable memory device is connected to the recorder/playback device, said functional controls including soft keys that are particular to the recorder/playback device.

26. (New) The portable memory system of Claim 24, further comprising:
an attachment area, including a magnet for attaching the portable memory system to a metallic object, such that the display means displays the image while the portable memory system is attached to the metallic object.

27. (New) The portable memory system of Claim 24, wherein the interface means connects to and detaches from the recorder/playback device via a wireless connection.

28. (New) The portable memory system of Claim 24, wherein the image is displayed as part of sequentially displaying multiple pieces of content.

29. (New) The portable memory system of Claim 24, wherein the recorder/playback device is a digital camera.

30. (New) The portable memory system of Claim 24, wherein the recorder/playback device is a computer.

31. (New) A portable memory device, the portable memory device comprising:
an interface, which connects to and detaches from a recorder/playback device;
a memory, in operative communication with the interface, which stores content including an image captured using the recorder/playback device; and

a display, in operative communication with the memory, which displays the image while the portable memory device is detached from the recorder/playback device.

32. (New) The portable memory device of Claim 31, wherein the display is configured to display functional controls for the recorder/playback device while the portable memory device is connected to the recorder/playback device, said functional controls including soft keys that are particular to the recorder/playback device.

33. (New) The portable memory device of Claim 31, further comprising:
an attachment area, including a magnet for attaching the portable memory system to a metallic object, such that the display means displays the image while the portable memory system is attached to the metallic object.
